About UniBa!

Barleti University is a non-public institution of higher education established in 2005 on the basis of VKM no. 571, dt.12.08.2005 "On the permit for the opening of the private university Marin Barleti", with two faculties and five study programs.

Barleti University is the first institution of higher education in Albania to have been set up under the qualified direction of the Academic Board. Since its opening, Barleti University has been working to create a stable, dynamic profile with quality, contemporary programs that combine academia and research due to the development challenges and the ever-growing and changing labor market.

Since its inception, Barleti University has been growing an interdisciplinary academic offer in the most demanded fields of the market; society, politics, environment. Its diplomas cover sectors such as: business, information technology, law, sports, design, social sciences, architecture, urban planning, medicine etc. and create opportunities not only for academic programs of all three levels but also for vocational training through special programs.

In its journey, the institution has enabled not only professional and applied undergraduate and postgraduate studies, but also other services such as testing and continuing professional training and licensing programs, through various collaborations with professional bodies, associations and employers.

The international institutional accreditation at the maximum level, confirmed the quality and contemporary vision of Barleti University, as an entrepreneurial university in the field of higher education since its opening and further development of new programs, bringing the Albanian students, diverse opportunities in their formation and job market success.

**Prof. Dr. Suzana Guxholli
Rector**

It is a great pleasure and a unique emotion, to have the opportunity to welcome you to Barleti University as its rector, at a special moment for the university, who has not only inaugurated a new campus, with modern facilities but also has materialized and expressed through it, the new vision, the new stage of its development as an applied and entrepreneurial university. Today we live in a time when the world and higher education together are undergoing explosive transformations, where knowledge grows and changes at a high-speed, when its importance in addressing the world's problems is indisputable, when technology offers limitless possibilities.

Barleti University has perceived and embraced these changes, both in the process of teaching and learning knowledge, as well as in the field of applied research. Barleti University is the heart of the Barleti Group that represents a system where many structures interact and altogether create a space and knowledge center, where new technological and professional skills and competencies are unbreakable, leading to innovation with new ideas.

The newly opened cosmopolitan and entrepreneurial campus, proves the approach to the long-term development perspective, which enriches university education and is represented in the curricula of academic and professional training.

The new campus is not just a building, but an instrument and home where dreams come true. At the entrepreneurial UniBa, you will find a place where you will receive knowledge and also promote and grow new ideas, whereas a "Barletas" you will not only be formed but also contribute to the developments of the day and will create new professional and friendly connections. Together with academics, representatives of business, government, civil society, students will work in and out of the auditoriums, to enter into concrete problems and solutions, through experimental, multi-disciplinary learning.

So in education and research, in the global context, Barleti University works to bring the world within it and enable students and academic staff to enter with an open heart and mind.

Barleti University is designed as an opportunity for the future, for changing careers, for how future generations will approach and think about learning and career. UniBa is therefore a center of knowledge where you can meet and become an entrepreneur, social activist, politician, UniBa is an open community space that embodies new ideas in many fields and applications or entrepreneurship, in social, political, cultural activism, etc.

Here at Barleti University, everyone finds a place where they can think and act, imagine and apply. Barleti University, there is no dilemma to choose between the ordinary and the new, tradition and change.

Prof. Dr. Suzana Guxholli
Rector

FACULTY OF ECONOMICS, GOVERNANCE AND JUSTICE

The Faculty of Economics, Governance and Law at Barleti University is a unique combination of three departments: Economics, Law and Governance. All three of these areas create great opportunities to act not only at the departmental level but also as a unique body that understands broadly the issues of good governance and research, to enable the full range of studies needed for the country. This multi-disciplinary approach makes the faculty an outstanding partner for high-level knowledge sharing.

We aim to transform our faculty into a school of good governance by giving to the country capable and competent people that will take on great responsibilities.

Our goal is to prepare a responsible student, able to understand the breadth of problems and use them in the service of the future. We aim to create a generation of optimistic and active young people to respond to the needs of the country, but also to orient themselves as rightly as possible in the globalization processes. We aim at the European citizen and the Albanian being responsible for his mission in life!

Prof. Assoc. Dr. Zamira ÇAVO
Chairwoman of the Board of Trustees
Dean

STUDENT LIFE

“Barleti” University followed by the motto “Student in the center” seeks to train ambitious, independent, creative, entrepreneurial students and bearers of the best values of citizenship. Life at UniBa goes beyond teaching and exams. Through student clubs, competitions, activities with many guests in various fields, conferences and sports matches, students not only learn, but also have fun beyond the auditorium.

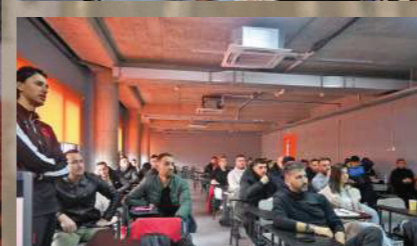

“Barletas” is the second name of every student who studies at Barleti University. The Dean of Students is the first support in every activity organized by “Barletas”, inside and off-campus. The mission of these activities is to foster collaboration among students and enrich development intellectual, ethical and social, engaging them more in the community, as well as fostering and developing habits and managerial and organizational skills. The Office of the Student Dean is committed to providing quality programs and services that promote self-government, respect for diversity, civic responsibility and lifelong learning. The goal is the rapid integration of students in today’s Albanian society, making that the youth dimension to be an important factor in direction academic of the university.

The University makes available to students the necessary services and infrastructure, which is directly related to insurance of the quality of studies, social life and health of students, starting from the care and academic supervision, administrative staff assistance and support infrastructure such as libraries, computer rooms, foreign language laboratory, as well as support infrastructure for sports activities, all this according to contemporary parameters and standards.

#STUDENTSCLUBS

#STUDENTCENTERED

#BARLETFORYOU

EVENTS AND ACTIVITIES

UniBa Campuses always organize different activities as the best way to help students get to know themselves, develop social skills and leadership, to make qualitative changes in their lives, as well as to meet friends you will have for whole life. Life beyond books, with a variety of activities organized by the students themselves, is an opportunity for explore personal interests (beyond academic studies) and above all, have fun. Every student can become an organizer!

At Barleti University there are 15 Student Clubs that help students do something they love, learn something new, or support a favorite cause. If we do not offer what you are interested in, students take the initiative to create a new Club.

STUDENT CLUBS are created by students and supported by the Dean of Students that takes care of the functionality of the clubs. Clubs aim to enable the organization and development of student social activities as well as develop interpersonal relationships and leadership ability. Barletas students are not the only part of the Student Clubs, but also high school students, graduates from all over Albania, who choose each club on the basis of their interests.

The experience gained in these clubs, Barletas can apply in their future career. Graduated students or Alumni also participate as honorary members in these clubs, giving their contribution through previous experience. Student clubs carry the energy of Barletas students. The number of clubs reflects the diversity of interests of student community. Student clubs and organizations offer to the student's opportunities to participate in academic, cultural, social and sports activities that match the development of knowledge, skills, values and attitudes recommended by professionals of the field.

COMPETITIONS

Students at UniBa are often placed in competition positions and they apply for various individually projects or in groups. The competitions give students business experience in the real world, a chance to practice their presentation skills and opportunities to connect with other students and professionals worldwide.

STUDENT GOVERNMENT: is the organization of students at the Barleti University, composed of student representatives from all faculties and constituent departments that are democratically elected. The basic objective of the Student Government is to ensure the academic development of students and their social and personal growth. Student Government is elected annually by student votes.

The Student Government promotes, coordinates and encourages the participation of students and the representation of their ideas and opinions in the governing bodies of the University, in the teaching-research structures and aims to guarantee services as:

- Functioning of Student Clubs;
- Social Services and Activities;
- Improving campus life.

AMBASSADOR STUDENTS

The Student Ambassador team was created by the best students of Barleti University, who have been praised by the University by awarding a scholarship based on their academic performance. Ambassador students are selected to be the worthiest representatives of the student's troupe at Barleti University, in various activities inside and outside the university. With a motto: "Students for Students", the mission of this team is to inform and orientate about the University the prospective students, their parents and the community as a whole, by the students themselves of Barleti University.

AWARENESS CAMPAIGN - BARLETAS FOR HUMANISM

Students for Humanities, are various awareness fields undertaken by UniBa students. Each year one or more topics are proposed to promote and support, topics useful to society or sometimes forgotten causes. Campaigns can be daily, weekly, monthly or even annual.

PROJECTS AND SUGGESTIONS

Student life at UniBa highlights students' abilities for future career. Offering a variety of activities, programs and services, UniBa encourages students to act, engage on campus and serve the community, have opportunities to enrich their knowledge, and be supported during their personal and academic growth and development. Encouraging entrepreneurship and involving students in making decisions at Barleti University aims to culminate in a comprehensive realization of a more successful career.

TESTIMONIALS

I'm proud to be BARLETAS!

Student 1: Thanks to "Barleti University" I feel more intellectually prepared, socialized, creative and collaborative.

Student 2: I'm very lucky to be Barletas, because we students are a precious omen that makes the university even better.

Student 3: Without discussion, a good student wants to study in a contemporary setting and UniBa has all the convenience that his students to study in good condition.

Student 4: The different activities are one more motivation to pursue studies in this University. Student clubs are always active, which in addition to vocational training make us more interactive as well as fill our day with activities entertainment.

Student 5: I had the opportunity to attend many national and international projects of UniBa like: Erasmus + in Spain, Betahaus & Betapitch Global in Berlin, Creative Business Cup Albania, where in addition to unforgettable experience I gained valuable knowledge.

Student 6: I would suggest it as the best solution possible to all who want to cross the most beautiful student years and at the same time to grow professionally by becoming part of the market of work.

Student 7: Barleti is one of the most important investments of life and definitely gets me very valuable if you are Barletas. I'm sure we will come out very professionally prepared and will worthily represent this big name in a near future in the job market.

ALUMNI AND CAREER!

Barleti University follows carefully the progress of its students, not only during the study cycle, but also after they graduate. Inclusion of the university in the job market and its lobbying for student employment has a special importance.

For this, has been created a dedicated unit called “Alumni and Career”. This office maintains constant contact with graduated students develops special activities throughout the academic year, because alumni are part of the Barleti family and are like the best ambassadors of Barletas.

Barleti University is constantly interested for employment and career of Barletas since the first years of their studies. Through the database of potential employer as well as updated information on job vacancies, the ‘Alumni and Career’ office supports students and graduates on their journey to employment, to develop professional internships, to build a successful career plan.

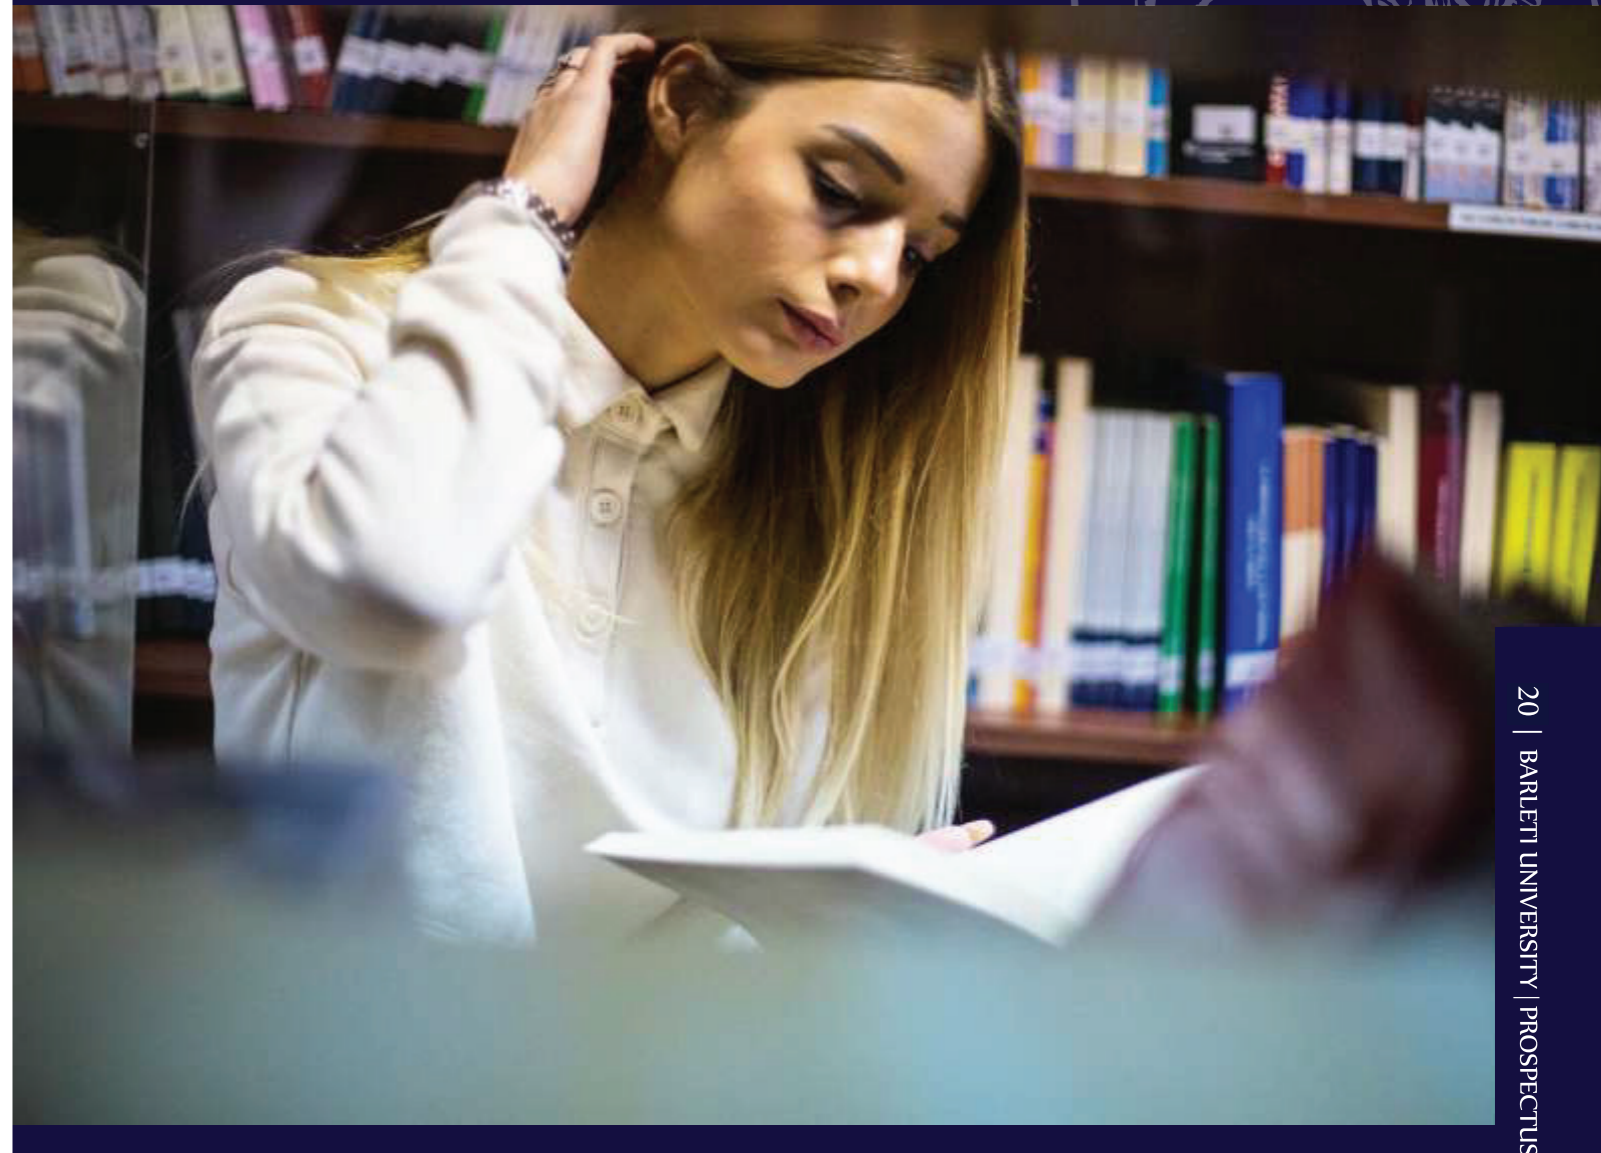

In this context, near all departments have been created the “Career Boards. These boards, with members from the labor market and Barletas Alumni, collaborate with the university to increase its lobbying for student employment, to improve curricula and curricula as required by the market, and to maintain continuous contact with professionals of different field.

The ‘Alumni and Career’ Office also organizes a job fair every year, as another important element that supports student employment and their twinning with the Barletas Alumni. Barleti University already has agreements with many large and small companies, government units, organizations and various labor market actors, with which it cooperates in dynamically.

5. Testing, training and consulting for managers, employees and staff of private companies, public institutions and organizations according to personalized modules on their concrete needs in improving management and future challenges.

BARLETI GROUP “ENTREPRENEURS” AND “INTERNATIONAL”!

Barleti University, as the central part of the Barleti group, is an entrepreneurial university where the problems of national and international reality have intensively become the epicenter of its research work.

Barleti University is a campus where students, academics, business, society and government together turn knowledge and ideas into solutions that benefit everyone. Through 4 institutes and 3 centers, Barleti University promotes a quality research applied to the demands of the market, the daily life of the whole country, the region and beyond.

Barleti University Institutes and Centers are a complementary part of the academic activity of the departments that nurture interdisciplinary connections with the demands of daily life, market, political society, etc. giving you a broad, common field of action for cre-

ativity, entrepreneurship and innovation, both students and academics, business and society as well.

They support the mission of Barleti University by emphasizing and highlighting the national and regional entrepreneurial component, fostering collaborations and fraternities with

other national institutions in over 10 national and international cities in about 7 different countries.

According to the “quadruple helix” approach, the continuous activity of the four actors is put at the center of UB’s activity: university, business, government and society, to contribute to the development and sustainable economic and social growth.

Prof. Dr. Suzana GUXHOLLI
Rector

INNOVATION / CREATIVITY / ENTREPRENEURSHIP

(Platform for cooperation, empowerment and interdisciplinary competition for new ideas, startups, acceleration and growth).

It is a flagship program that aims to create opportunities and nurture students and others who want an entrepreneurial culture in a supportive ecosystem for start-ups and innovation. Its parts are: incubator, maker space, co-working space, creative garage, academy of start-ups, etc.

His motto is: “Start creating ideas, nurture them, and turn into successful start-ups and fast-growing business, competitive in the national and international market.”

Encouraging students to start thinking and finding ideas, embryos that can be implemented and turned into entrepreneurship, developing ideas while still studying at university, turning them into interesting business plans that attract funding, pursuing them in further phases, their presentation in business and financing networks, in support partners, etc., is a practice at Barleti University, embodied in various initiatives such as start-up, spin-off, etc.

INNOVATION - It is the Achilles heel, the competitive advantage of the future - the incubator for open democratic challenge.

CREATIVITY - It is a culture that generates added value through the development of - the city, the economy, public spaces, and artists as living laboratories for the creative industries.

ENTREPRENEURSHIP - It is the path to success of young entrepreneurs, a propulsive system that is realized through meetings and collaborations with investors, partners, financiers, media, mentors, etc. through various competitions in accelerators, co-working facilities, creative garage, maker space, transfer of new technology, consulting services, professional networks, communities and youth entrepreneurship activities at UB.

Barleti Hub, as part of the Albanian entrepreneurial ecosystem, paves the way to innovative success by including a wide network of links and collaborations.

Barleti Group and Barleti University as part of it, already enjoys a name with international reputation and experience in various fields. Through 51 academic researchers and entrepreneurship students, interdisciplinary experts, 7 of its structures has already completed over 30 projects, about 20 initiatives and has conducted studies in various fields funded by EU programs, United Nations, GIZ, Albanian Government or, governments of other countries such as Sweden, Switzerland, Germany, Italy, the Barleti group itself, etc. Part of this innovative and innovative entrepreneurial approach is BTTC, Adriapol as the center of the Regional Cooperation Commission (RCC).

Barleti Hub has success stories: with participation and experience in national and international competitions such as BetaPitch, etc., with 46 agreements with companies, organizations, universities, etc. that foster collaboration for joint ventures and confirm Barleti University as an entrepreneur. BU is like this, not only as an agora of intellectual debate, a center of education and university research, but also a hotbed of start-up entrepreneurship, innovation, etc. thus part of the community of European entrepreneurial and innovative universities.

OFFICE OF RECRUITMENT, ADMISSION AND REGISTRATION | SCHOLARSHIPS!

Our purpose is to recruit students, provide services and best academic and professional practices that help and educate young students in counseling, starting and developing their University career. Students - our mission.

BARLETI UNIVERSITY pays special attention to the student scholarship system. This is a social and moral responsibility of the institution, to all those young people who are excellent or financially incapable of pursuing their studies.

Barleti University offers 4 categories of full or partial scholarships:

- **The Excellence Scholarship** is awarded to students who have a high average of high school, cycle or previous year of studies.
- **The Social Scholarship** is awarded to students coming from low-income families, children of police officers killed on duty, PWDs, members of Roma or Balkan-Egyptian minorities, etc.
- **Talent Scholarship** is awarded to students who have outstanding public talent such as: singer, dancer, athlete, writer, painter, etc.
- **Leadership Scholarship** is awarded to students who demonstrate entrepreneurial skills in non-profit organizations, civil society, organizations politics, etc.

STUDENT FINANCING

Barleti University has a philosophy of setting such tuition fees, which can be easily afforded by students. In addition, Barleti University offers support through student funding to all those who cannot benefit from the scholarship system and have difficulty paying the tuition fee. Barleti University, together with partner banks, undertakes to credit the tuition fee at no additional cost and without any interest on this fee. The student chooses for himself the value of the monthly installment he can pay. He can also repay this loan even after completing his studies, after he is employed.

INSTITUTES - UB

- Dr. Esmeralda Hasani**
Executive Director of the Adriapol Institute
- Msc. Ilia KURO**
Executive Director of the "Barleti Association"
- Msc. Eurona LEKA**
Executive Director of the AIPA Institute
- Dr. Gazmend ZENELI**
Executive Director of the BIRD Institute
- Msc. Sabina BORAKAJ**
Executive Director of YOUTH ACT

Five organizations surround the academic life of Barleti University:

Youth Act Center, which empowers youth as the engine of the country's development.

Barleti Institute for Research and Development, as a genuine research-scientific institution, with the aim of becoming a center of excellence for interdisciplinary research in areas related to the processes of economy, environment, innovation and mobility.

Adriapol Institute, engaged in research, educational projects, various consulting and initiatives for the smart and creative development of the economy.

The Albanian Institute of Public Affairs, AIPA, is a non-for-profit, without membership organization which does not pursue political, commercial, business or religious goals. It is established in 2011, and operates under the umbrella of Barleti University.

AIPA's Mission is to contribute to the processes of democratization of the life of the country, to influence the improvement of policy-making in Albania, at central and local level, through the promotion of democratic values and practices, awareness and education of active citizens, testing public opinion, monitoring various strategies and policies, providing knowledge based on the latest research, as well as qualified and independent expertise on political, social, economic and legal issues related to the development of the country.

The Active Projects of AIPA Institute are:

- "ARIO" Platform (Ambassadors and Representatives of International Organizations)
- "Stdens Talk" Forum
- "Young People Champions of Human Rights" Project

The Executive Director of AIPA Institute is Amb. Gilbert Galanxhi.

The staff and lecturers at AIPA Institute are experts in the field of project management, as well as in various research fields, which guarantee the qualitative accomplishment of its objectives.

Barleti Association supports health, education and sports.

BARLETI ASSOCIATION

VISION

Creating an environment as friendly as possible for active, professional and healthy youth is the basis for the social, economic and cultural development of stable of the country.

OBJECTIVES

The aim of the Barleti Association is the inclusion of student youth in activities sports, as an active part in particular, but also as sports enthusiasts in general.

BACKGROUND

The women's volleyball team was founded in 2003, by **Mr. Gafur DUDAJ**, and in its beginnings it bore the name "Aulona Volley". In 2005 the team was included in the structure of Barleti University, and during the 2005-2006 seasons the team was represented by a new name, "Barleti Volley".

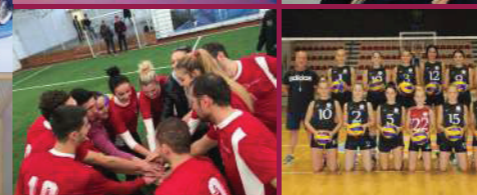

OUR MODEL

"Barleti Volley" has brought an innovation for Albanian volleyball, the application of the model Anglo-Saxon with the student-player formula. Being part of the structure of "Barleti" University, the team consists of female students of our university and on the basis of this formula, we distribute scholarships year after year for elite athletes.

"Barleti Volley", as the only completely university team in Albania from its inception until today, has been supported with entirely private funds.

BARLETI VOLLEY

"Barleti Volley" as part of the Barleti Association and Barleti University is one from the elite Albanian volleyball teams, which proudly holds over 32 sports trophies, among which: 7 times winner of the ALBANIAN CUP and 4 times proclaimed NATIONAL CHAMPION.

**TRIPLE
CITY**

MANTRA - EVOLVE

*'Evolving as a style of **working** - **learning** - **living**'*

TRIPLE CITY INITIATIVE

Triple City, in the form of a multifunctional ecosystem, is the first and only Platform in Albania, in which people work, learn and live as part of a community where entrepreneurship, creativity and innovation guide the vision of their work.

The multifunctionality of Triple City is concretized through interconnection of different structures and functionalities, within a single environment, in the form of a physical or virtual ecosystem. **Co-working** space, various production laboratories like **Fab Lab**, **Maker Space**, **Clusters** and **Smart City Lab**, **Creative City Hub**, **Business Terminal** as a service space, variety of events as a space for networking and socialization, as well as skill development academies professional, such as the **Academy of Business & Startups**, **Digital Future** or **Creative Industries**, are concrete examples of the multidimensional ecosystem of Triple City.

PROGRAM DIRECTIONS

ENTREPRENEURSHIP: co-working space to support youth entrepreneurship and promote self-employment, create a friendly environment for local entrepreneurship and accommodate international actors interested in exploring investment opportunities in the region; increase professional skills and strengthen human capital in order to connect with the labor market and support employment programs.

CREATIVITY: empowering creative industries and creating a regional artistic movements, organizing a network of creative classes and turning Triple City spaces into a stage where artistic and cultural activities take place; promotion of cultural identity, recreation and development of artistic life, increase of activities and promotion of local artists, performances by international artists, etc.

INNOVATION: HUB for ICT and new technologies, environment and renewable energy as well as the largest laboratory in the city, both in human and technological terms, in support of various initiatives in **"Open Innovation"**.

WHAT DO WE OFFER?

The initiative Triple City came in response to the lack of a one-stop shop in the local market which provides physical and virtual infrastructure, technology and equipment, community and partnership network, services and products for new businesses, training and vocational training, support and advanced expertise in the field of creativity, entrepreneurship and innovation. This ecosystem helps entrepreneurs, creators, freelancers, local and foreign, professionals and experts, producers and innovators, students and young educators to collaborate, train and develop in a professional community with technological infrastructure and advanced services to promote and support start-ups and individual projects.

MISSION AND VISION

VISION: 'To be promoters of the 'co-working' space, community, entrepreneurs and startups, the digital economy and the creative industries'.

MISSION: "To create a community that empowers entrepreneurship and startups, the digital economy and creative industries, where young experts, freelancers, new businesses, creative and innovative entrepreneurs, recent graduates, academics and young researchers, to have the necessary space and professional support to expand their level of knowledge and collaborators, develop ideas and prototypes, commercialize innovative products and walk confidently toward success'.
